Piotr Lavrov <Piotr.Lavrov1@oktetlabs.ru>

OKTET Labs is ready to employ new gifted software engineers fitting the required expertise levels. The candidates should be good C programmers, experienced with Linux and gnu tools, have knowledge of TCP/IP stack and other network protocols. Good technical English is mandatory. The full knowledge list expected from the new employees can be found here [knowledge_list.rhtml].

We also invite students with the basic background in the above areas for intensive training combined with part-time work in our company.

We can provide a flexible working schedule. The company tries to create a comfortable work environment and competitive salary.

You are welcome to send your application to this e-mail [mailto:info@oktetlabs.ru].
